Complete Drain Clean Kit 1/8", 3000 PSI, 140°F, 25' hose with #4.5 nozzle and M22 nipple	080041100

- Backward ports drive the nozzle forward and flush debris while forward port blasts into and breaks up clogs/debris
- Rotating style adds extra agitation and surface cleaning
- Corrosion resistant stainless steel construction
- Physically small for cornering ability
- Available in a variety of styles and sizes

- Slides easily into drain pipes, sewer and water lines
- Flexible for cornering (safe bend radii 0.88"-1.25")
- Durable thermoplastic construction
- Available in a variety of styles and lengths
