

CHOOSE SUTTNER. CHOOSE THE QUALITY YOU'VE GROWN TO EXPECT.

ST2600 Relax Action

The standard **ST2600 "Relax-Action" spray gun** is a complete shut off valve. A commercial cleaners dream the trigger system actually helps the operator keep the trigger open. Fatigue is reduced, allowing longer work periods. An all stainless steel version is also available (gray nameplate). The ST2600's exclusive "Relax Action" trigger system gives it the easiest holding trigger and most comfortable grip. At 4200 PSI, the trigger can be held open with as little effort as 3½ pounds. While other guns require a full hand grip and about 15 pounds of force to hold the trigger open, the ST2600 can be held open with a finger. The rugged construction provides longevity and will stand up to the UL 1776 requirements and your tough working environments.

The new "**Easy Pull**" **ST2300** and "**Relax Action**" **ST2600** spray guns are unparalleled in performance and operator comfort. Suttner designers focused on comfort because whether the operator is a commercial cleaner or car wash customer, the spray gun is the contact point that puts the operator in control. The trigger systems on these guns greatly reduce fatigue so the customer will work longer, clean better, and come back more often.

Features:

- *Valve construction allows for the least amount of flow resistance.*
- *Proper spray angle for optimal positioning of pressure points.*
- *Handle and trigger design allows for "full-finger" gripping.*
- *Stainless steel valve components and chemical resistant seals.*
- *Trigger lock-off for safety protection against inadvertent operation.*
- *Durable plastic housing for valve protection and operator comfort.*

ST2300 Easy Pull

The standard "**Easy Pull**" **ST2300** is also a complete shut-off valve ideal for the industrial grade portable pressure washer. The ST2300 is constructed with the same durable components as the ST2600. Because of the trigger design and pivot pin location, holding open the ST2300 requires nearly half the effort of other rear-entry guns. Car wash customers appreciate the ease of operation and comfort the ST2300 provides. If you have extreme abuse applications, the ST2300 is up for the challenge.

Weep Versions

The car wash customers will love the new weep versions. Available in both the Easy Pull ST2300 and the Relax Action ST2600.

Specifications

*Pressure: 4500PSI (max) • Flow: 12USG (max) • Temp: 300° F (max)
• Inlet: 3/8" FNPT • Outlet: 1/4" FNPT • Weight: 21 oz.*
